

## Disability Evaluation Under Social Security

### **\*11.02 Epilepsy - convulsive epilepsy, (grand mal or psychomotor)**

Documented by detailed description of a typical seizure pattern, including all associated phenomena; occurring more frequently than once a month, in spite of at least 3 months of prescribed treatment. With:

- A. Daytime episodes (loss of consciousness and convulsive seizures) or
- B. Nocturnal episodes manifesting residuals which interfere significantly with activity during the day.
